

La Parmentiere

- New and improved design has 20% more capacity than others on the market. Chemical and non-chemical processes, we can produce what your customer wants
- Time saving design thoroughly washes, scalds, and bleaches the inside surface of beef, and sheep paunches, pork stomachs, rennets and cattle bibles in a one step process
- Energy efficient cone spray nozzle enables greater control over hot water use by helping minimize over consumption
- Cleaning is fast and thorough, but doesn't damage the product
